Subject: Intermodal

Dear Sir,

I realize that just missed the deadline for public comments, but perhaps I can still be counted as one more person (in our case--

family) against the proposed intermodal site near Gardner, Kansas.

Since my comments are late, I will be very brief. We are very concerned about the increase in pollution at the site and in the surrounding area--most notably the increase in air and particulate pollution that could throw the entire KC metropolitan area into non-compliance with federal standards. We are also very concerned with the increase in traffic to the surrounding area as well as an increase in noise and light pollution.

Thank you for your time.

Sincerely, Michele Frantz
